PROFILE

Product builder at the intersection of health, sport and community. For 15+ years I have helped people reach their peak through tennis and holistic health coaching: movement, strength & conditioning, nutrition, breathwork and mindset. Over the last three years I have taken four products from discovery to launch, using data and well-designed systems to make that work scale. I am now focused on health tech, where the same approach can help far more people live healthier lives.

I bring clear communication, calm leadership through ambiguity, and the ability to align very different stakeholders, from coaches, parents and venue operators to clinic owners and engineers. Technical enough to build what I spec (Next.js, AWS, Claude API), so I can talk feasibility with engineers rather than guess at it.

SKILLS & QUALIFICATIONS

Product: discovery and user interviews, problem framing, MVP scoping, roadmapping, pricing and packaging, pilot design, success metrics, go-to-market

Leadership & Communication: stakeholder management, coaching and mentoring, facilitation, cross-functional collaboration, explaining technical ideas to non-technical people

Data & Growth: GA4, Google Search Console, technical SEO, funnel and conversion analysis, measurement frameworks

Technical: Next.js, React, TypeScript, Node.js, PostgreSQL, AWS (Amplify, RDS, SES), REST APIs, Claude API, Python, Git

AI Workflow & Design: Claude Code, Cursor, n8n automation, prompt engineering · Figma, UX research, wireframing, prototyping

Qualifications: ATPCA Level 2 Tennis Coach · Software Engineering Immersive, General Assembly (2019) · Google UX Design Certificate (in progress, 2026) · LLM application courses, DeepLearning.AI (2023–2024)

Languages: English (fluent), Russian (fluent), French (conversational)

PRODUCT EXPERIENCE

Founder & Product Lead | CourtDesk

Mar 2026 – Present

Coaching-business SaaS for independent tennis, padel and pickleball coaches

- **Discovery** — Ran 16+ interviews with coaches and venue operators; scoped the MVP around one high-impact fix: a single aggregated inbox.
- **Delivery** — Shipped inbox, term scheduler, one-tap attendance, payment tracking and student database; sequenced AI-drafted replies after core workflows were validated.
- **Validation** — Piloted on my own coaching business first; 8 founding coaches lined up for the pilot cohort.
- **Pricing** — Designed Solo (\$39) / Pro (\$99) / Academy tiers plus a founding offer to test willingness to pay.

Product Builder | AI Compliance Verification Prototype

Aug 2026 – Sep 2026

AI document review for financial services

- **Opportunity** — Spotted an unsolved document-review gap in financial services; built a prototype to test it before pitching.
- **Delivery** — Checks PDF and Word documents against compliance checklists via Claude API, with page-level evidence and human review of every flag.
- **Privacy & cost** — Redacted sensitive fields locally before any model call; tracked token cost per run; reviewed with a wealth-management CTO.

Founder & Product Lead | Tennis Network

Mar 2025 – Present

Sydney platform connecting players to courts, coaches and community

- **Discovery** — Validated the court-finding problem with players and 10+ venue operators before writing production code.
- **Delivery** — Cut a multi-venue availability search from 20+ clicks to ~2; live across 12 venues and 73+ courts.
- **Data integrity** — Chose official data access from the booking provider over scraping workarounds when the source added bot protection.
- **Growth** — Secured 3 brand partnerships; technical SEO drove early organic growth; spun a coach-side problem into CourtDesk.

Founder & Head Coach | Systema Tennis

Apr 2023 – Present

Biomechanics-led, whole-person coaching across 4 Eastern Suburbs venues, run like a product

- **Segmentation** — Private, semi-private, group and junior programs, plus an executive program for underserved early and late slots.
- **Measurement** — Video analysis and player report dashboard tracking forehand, backhand, serve and movement progress.
- **Acquisition** — Own website, technical SEO and GA4; reached page-2 average search rankings within 3 months of launch.

Digital Consultant | DigitalBuilders.co

May 2022 – Present

Websites and digital systems for small businesses, from requirements to launch

- **Delivery** — Delivered 8 client websites across sport, health, education and community services.
- **Health** — Consulting a Sydney physiotherapy clinic on rebooking, patient flow, website, SEO and practice systems.
- **Productisation** — Packaged the service into Starter / Professional / Premium tiers with defined scope and pricing.

- **Stakeholders** — Leading a founder-led rebrand with co-created milestones and regular accountability check-ins.

GROWTH, OPERATIONS & LEADERSHIP

Head of Digital Strategy | Coogee Beach Tennis

Jan 2021 – Jan 2025

Alongside Senior Tennis Coach role (Mar 2017 – Sep 2024)

- **Growth** — Grew social following 685% and content reach 27,000%+, keeping production under \$50 per campaign.
- **Data-led redesign** — Traffic analysis showed the junior page drove most traffic and revenue; interviewed parents, coaches and admin, then rebuilt it with a timetable staff update themselves.
- **Partnerships** — Coordinated an inter-club initiative integrating 450 new customers across 8 venues.

Operations & Event Manager | ESTA NSW Interclub Competition

Apr 2021 – Jun 2024

- **Leadership** — Ran a cross-club junior competition across 9 venues and 248 juniors as a first-time operator.
- **Systems** — Self-service processes agreed with all 9 venue operators cut weekly workload from 10 hours to 2–3.

EARLIER EXPERIENCE

Co-founder, Product & Engineering, Hazumi (2022–2023): web3 virtual tennis academy combining education and community.

Front-end Developer, Sisterhood Club (2021–2023): React front end on a 4-person team; education platform for women in tech.
